TO OUR PATRONS AND FRIENDS

A number of Ice Plants over the country have found after careful examination of their books that it cost them about 10 per cent to charge and collect their retail ice accounts. As a result they are rapidly placing their retail business on a cash basis.

Our own experience being in line with the above and believing that this 10 per cent cost is an unwarranted loss, we have decided to do likewise. However, we do not expect to add this 10 per cent to our profits; but will reduce our prices accordingly, so as to give the benefit of the saving to our patrons.

Therefore beginning March 15th, 1915 we will conduct our entire retail business strictly for cash and the following reductions will be made on Ice Coupon Books.

400 lb Book, Old Price \$2.50 less 10 per cent, New Price \$2.25
1000 lb Book, Old Price \$5.00 less 10 per cent, New Price \$4.50
2000 lb Book, Old Price \$9.00 less 10 per cent, New Price \$8.10

It is our purpose to render the best service possible and to this end we will welcome suggestions and the co-operation of our patrons. Respt.

How big, how wonderful, how truly remarkable the stupendous 15 week serial, entitled, "The Black Box" can only be determined by seeing it.

Lovely of face and graceful in every movement, Margarete Snow has won the heart of every movie enthusiast. Runaway June promises to be equally as captivating.

Elaine's exploits are truly nerve racking. It is a great mystery story, played by great actors. The Saturday matinees are very popular with this as one of the attractions.

Again we say to the contestants that we are playing no favorites and will be glad to publish their pictures and give them a short write up if they will furnish the cut. You know we believe it pays to advertise.

Miss Sallie Elkin will have an exhibition, Friday and Saturday, at Anderson's furniture store, an Easter display of china. She would like to take orders for graduating and bridal presents if she hasn't what you want now.

TO LOVERS OF BIRDS.

"Don't kill the hungry bird in your field and orchard until you know what it is after," the Club warns the farmer and insists: "Birds must be studied so that Agriculturists may know and protect from destruction those birds which are of service to them, and detect and drive away those which do damage."

WEEK OF PRAYER.

The annual week of prayer and self-denial was observed by the C. W. B. M. this week. This season of prayer is a spiritual uplift which no woman of the auxiliary should miss. Tomorrow (Friday) afternoon the Thank offering boxes will be opened. Let the offerings be rich with the spirit of prayer and sacrifice.

OLD COMMISSION.

Mr. John W. Miller, of this city, has a commission issued to his father by Governor Desha, in 1824, appointing him a Lieutenant in the Kentucky state militia. The commission is well preserved and Mr. Miller is naturally proud of it. It bears the endorsement of Squire John Yantis, who was a Justice of the Peace in this county at that time.

RURAL CARRIER SUBSTITUTE

Mr. Homer Ray, who has been acting as substitute for the Rural Mail Carriers, for several years, resigned this position a few days ago and Mr. William B. Cox, was recommended and appointed in his place. No better appointment could have been made and the patrons of the several routes can be assured that prompt and courteous treatment will be accorded them by "Billie".

HOPE IT DON'T STRIKE HERE

The proposed curtailment of the rural free delivery service has caused the carriers to quake in their boots. However, we believe that the local routes are on such a substantial footing as to be in no danger. All three of the routes are of vast advantage to the various communities which they serve, and the discontinuance of any one of them would be a source of keen regret. The routes are well patronized, and this is what counts, for the amount of mail matter handled, the time consumed on the routes and the value of stamps etc sold is the basis upon which the carriers salaries are figured, and if these are kept up to the standard, there is no danger of the routes being discontinued.

High-Class Vaudeville at Roman's Opera House, Thursday, Friday and Saturday Nights. Good Pictures will be shown each Night.

NEW SUBSTITUTE

RURAL CARRIER.

Mr. William B. Cox has been appointed substitute rural mail carrier, and is seeing his initial service during the absence of Carlton Ekin on his annual leave. Mr. Cox is performing his duties in a manner very satisfactory to the patrons of the route.

THE TIME TO SWAT

THE FLY IS NOW.

During a few warm days any rubbish heap in or out of the dwelling becomes a hatchery for myriads of young flies not only to be condemned as a nuisance but exterminated utterly, if possible, when we consider that they may and often do carry into the household the disease germs of infantile paralysis and typhoid fever and no food in the house is safe from their attack.

CITY WINS IMPORTANT

LAW SUIT.

When the Lancaster Water Plant was improved a few years ago the contract to build the filter was awarded to the Greer Filter Co., of Pittsburgh, Pa. This concern contracted with Philip Monahan to do the concrete work on the filter. After this plant was built the city found that it was not according to contract and proceeded to build another that would meet the needs of the city, and refused to accept the Greer plant. Monahan sued the city and undertook to assert a Mechanics lien against the City's water plant. Upon the trial of the case the court decided that the plant was worthless and gave judgment in favor of the city.

The taxpayers save about \$500.00 in winning the suit, which money can be used in repairing the streets. Monahan was represented in the suit by Judge Jennings Greenleaf of Richmond and the city by J. E. Robinson, city attorney.

WOMEN'S FIGHT

STIRS NATION.

Interest in the fight which the women of Kentucky are waging against illiteracy is extending far beyond the state's borders. Letters and messages of inquiry and encouragement are coming to the office of Mrs. Cora Wilson Stewart from every state in the union. Mrs. Stewart's explanation of the work being done in the now famous "moonlight schools," in the recent meeting of the Kentucky Press Association, is serving to heighten interest over the country.

Campaigns are being waged in all the cities and towns of Ky., but Lancaster has been very slow to take hold of this work. How many persons are there living in and near Lancaster who would like to attend a night school? If you know of those who want to learn to read enough to pursue letters, and to be able to read them, and to glimpse in books and papers, the world from which they have been shut out, will you not enlist their attention and have them register at the Record Office. For those who really are in earnest and want to learn the "three R's" this advantage awaits them.

LANCASTER GOES AFTER THE DIXIE HIGHWAY.

A conference of the Governors of the States of Illinois, Indiana, Kentucky, Tennessee, Georgia and Florida has been called by Governor Samuel H. Ralston, of Indiana, to meet in Chattanooga, April 3, 1915, for the purpose of taking definite formal action looking towards the building of a through main highway from Chicago and South Bend Ind., to Miami, Florida. A great mass meeting of delegates from six states will be present to select routes, name, and to perfect an organization to promote the Dixie Highway from Chicago to Miami.

Improved roads, where already built, will, of course, be utilized in making out the route, but the aim of the Dixie Highway organization will be to lay out a road as direct as practicable, keeping in mind the beauty of scenery and the interesting character of the cities and the country through which the highway will pass.

One of the preferred routes is from Chattanooga thru Tennessee to Albany Ky., thence by way of Somerset, Stanford, Lancaster, Nicholasville, Georgetown, Williamstown to Cincinnati. This highway is expected to be the great north and south route for automobilists and will be connected with branches reaching into all sections of the States through which this road passes. Many roads lead through the general territory reached by the highway that are nearly parallel, and there is an active competition as to which route will be officially selected.

The advantages of having the Dixie Highway pass thru Lancaster, the beautiful scenery surrounding Boone's Knob, the historic spots of Camp Nelson and Camp Dick Robinson will be presented at this meeting of governors by the following business and patriotic men of Lancaster: J. M. Farra, R. L. Elkin, J. E. Stormes, L. G. Davidson, J. L. Gill, G. C. Walker, Harry Ware and F. S. Hughes, Joe J. Walker, Jas. W. Smith, Dr. J. J. Pursley, H. V. Bastin.

This picture is a counterfeit presentation of Miss Frances Grant. This young lady is anxious for the pony and cart. She is a country girl living just the right distance from town to enjoy it. She says she can not only ride and drive but take care of one. The support of her friends is earnestly solicited.

This handsome little boy is J. O. Bogie, Jr. J. O.'s strongest supporters are his little friends, whose devotion to him is indeed beautiful. Although J. O. is lame he says he is not making the race on that issue as he wants the pony just like the other boys and girls, to enjoy and to take all his friends out riding.

IMPROVEMENT FOR CITY STREETS.

At a call meeting of the Council Monday night it was decided to do considerable street work in this city during the next few weeks, and the street committee was directed to purchase twenty cars of crushed stone from Mt. Vernon and the work will begin at once.

Vaudeville at Lancaster Opera House this week.

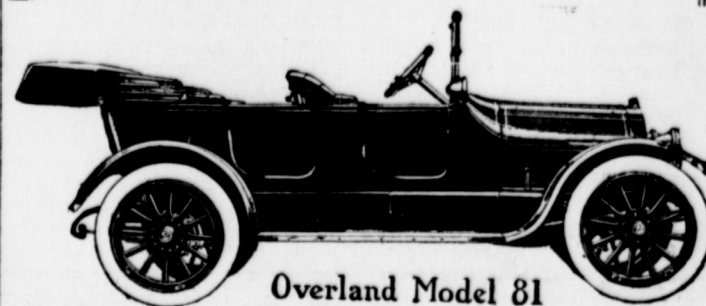

STANLEY LEADING FOR NOMINATION.

Tom Cromwell sees the ex-Congressman in the lead of his opponents for the Democratic nomination for Governor and writes his views. He says in Sundays Cincinnati Enquirer in part: "Notwithstanding the absence of former Congressman A. O. Stanley, who is earning the big end of his campaign fund by the sweat of his brow and the eloquence of his tongue in the Indiana election cases at Indianapolis, he appears to have a host of loyal boosters who are looking after his interests as regards the nomination for governor. One of these who dropped in from Louisville yesterday exhibited a clipping from the Grand County News in which it was related how Stanley had carried that county at the senatorial primary last August and which said: "Every one of those who voted for Stanley last fall will vote for him again; besides there will be many recruits to the Stanley banner. Several here who voted for Beckham last fall have openly declared they are for Stanley this time. This being the case it will not be surprising if he carries the county by a comfortable majority over all five other candidates." He had clippings from a number of other county papers in which expressions favorable to his campaign were made, and he said:

"Everywhere I go I find that Stanley is 'out in front,' as they say on the race track, and I do not find so many people turning handsprings and throwing their hats into the air about McChesney, though I haven't a doubt about his getting all of the ultra prohibition vote that will not go to Newman. As I see it, the race is between Stanley and McDermott, who unquestionably has the better of the situation in the Fifth congressional district, and who is making a strong play for Covington and Newport, which represents the bulk of the Sixth district vote."

THE COST OF WAR.

Sombody recently has figured out the cost of the world's greatest wars. The totals are so enormous that the human mind can not comprehend their immensity. The cost of the present European war has been estimated at \$50,000,000 a day. The down-trodden yeomanry of those countries will never live long enough to get from under the tax burden. They will have to pass it on to future generations and no prophet can foresee a time when it will all be paid. Millions and billions in debts are being accumulated, thousands of lives are being blotted out, cities are being wrecked, villages desolated, and towns destroyed. Gen. Sherman said, "War is hell," and there never was and never will be a better definition. Let us have peace here in the United States. Peace at almost any price is preferable to war.

Mr. and Mrs. Newton Todd recently of San Antonio Texas were here last week the guests of his parents, Mr. and Mrs. William Todd. Mr. and Mrs. Todd were enroute to the Philippine Islands where they will make their home for five years, Mr. Todd having an important position there.

The members of the Dramatic and Glee Club who repeated their program at Kirksville on Friday evening are loud in their praises of the good ladies of that vicinity. A delicious six o'clock dinner was served to those who were on the program and the seating capacity of the auditorium was taxed to its utmost to contain the large crowd that came out to witness the performance. That such a large number should come out to see a repetition of an amateur performance is proof positive that this little band of players do good work.

Stomach Trouble Cured.

LONGMORE IN WASHINGTON
DISCUSSES PHEASANT
PLAN.

Kentucky is soon to try out the most extensive experiment in the propagation of pheasants ever undertaken by any State. Wood W. Longmore, of Frankfort, secretary of the Kentucky Game and Fish Commission, who arrived here today, made this statement to Representative J. C. Cantrill and other of his friends.

Mr. Longmore stopped off here on his way home from Philadelphia, where he looked after the distribution of 2,500 English ringneck pheasants that were purchased by the State of Kentucky of a private pheasant fancier in England and which were shipped to the United States on the steamships Sardinia and Dominion. At Philadelphia the birds were divided into separate shipments and they are now on their way to Kentucky. Some of the birds will be sent into each of the 120 counties in the State. Many of the pheasants will be given their freedom on arrival at the points of destination, although quite a number will be kept in captivity at the State game farm at Pine Mountain.

In a number of instances three birds will be placed on a farm with the understanding that the owner of the farm will not allow any shooting on his premises for at least two years.

"We are making this experiment to see if pheasants will thrive in Kentucky," said Mr. Longmore. "Many of the Western States, notably Oregon, Montana and Wyoming that have imported pheasants, have had much success with them, but usually the birds have not done so well east of the Mississippi River. We also are making arrangements in co-operation with the State of Pennsylvania to import quail from Cuba."

About 150 separate shipments of pheasants were forwarded from Philadelphia to Kentucky and they are now en route to their several destinations.

HEAVY PENALTY

TO KILL ONE OF THESE BIRDS.

The pheasants consigned to Lancaster were sent to Mr. John Farra arrived Monday and attracted quite a good deal of attention. There were 15, five males and 10 females, one of the hens had died on the way. Judge C. A. Arnold, Wade Walker, W. B. Penny, J. I. Hamilton, J. M. Farra, each received two hens and one rooster to place on their farms that are in different localities and conducive to the propagation of these birds.

It was urged by the game commissioner that a place be selected where the natural cover is very thick with water nearby and to scatter feed about where it could be found. He also suggested that they be liberated near a thicket or where they thick underbrush grows. The above named gentlemen agreed to all the rules and regulations and woe be to the man that fires a gun on their farms.

REWARD OFFERED.

The county court has offered a reward of \$25.00 for the arrest and conviction of any one shooting or molesting any of the English ring neck pheasants just liberated in Garrard. In addition to this Messrs Hamilton, Walker, Arnold, Penny and Farra offer a reward of \$10.00 on same conditions. All of this is in addition to the reward offered by State Game Commissioners.

BUENA VISTA SCHOOL NOTES

An attractive program has been arranged for the closing exercises of the Buena Vista Consolidated School. On Saturday evening April 10 the students of the High School will present "Mr. Bob". The characters for this play have been carefully selected and it promises to be the best the students have ever given. The music for the evening will be furnished by the Burgin orchestra and all who have heard these popular musicians know that the music alone will be worth more than the admission price.

On Monday evening, April 12, the Eighth Grade students assisted by several from the High School will give "Dr. Cure-all", a popular farce. A dramatization of "The Sleeping Beauty" will be presented by the boys and girls of the 4th, 5th, and 7th grades on the same evening. Special music by students will be an attractive feature of the entertainment.

Tickets admitting both evenings 30c. Tickets for single evening 20c. Tuesday, April 13 an all day reception to which everyone is cordially invited to which will be held at the School. Music will be furnished by an orchestra from one of the neighboring towns and addresses will be made by Prof. T. J. Coates, the State Rural Supervisor of Schools, Rev. F. M. Tindler of Lancaster, Ky., Prof. Calfee of Berea College and Dr. E. C. McDougle of the Eastern Ky., State Normal. Lunch will be served and there will be exhibits of the pupils work. Every patron and friend of the school is urged to be present and a general good time is assured for the closing day.

Oil Treatment for Stomach Troubles

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

CANAL PAYING EXPENSES.

The canal is already paying expenses although it was not expected to do so for several years. The volume of traffic is surprising, particularly in view of the prostration of international commerce by the war. The utilization of the canal by domestic commerce between the two oceans is especially satisfactory. Several new transportation companies have been started, and the steamers plying between New York and the Pacific ports are reported as constantly filled to their capacity with freight, in both directions. The canal is fulfilling its proper function in relieving the transcontinental railroads of much of the bulky traffic, making better time at less cost. The railroads themselves are not enthusiastic over this fact, but the people of the East, West and South are pleased.

Up to this time the Panama canal has appealed to the American imagination chiefly as a Herculean feat of engineering, admirably performed. That stage is past. The canal is now justifying the labor and cost by taking its place as the strategic center of a great world-traffic.

THE THREE DUDES.

Three dudes were walking along the streets one morning and met an aged, decrepit minister, with long white hair and beard. Desiring to poke fun at the old man, the first called out, "Hello, Father Abraham." The second said, "Hello, Father Isaac." and the third chimed in, "Hello, Father Jacob." The minister, seeing the situation, and likewise using Scripture, quietly replied, "I am neither Abraham nor Isaac, nor Jacob, but Saul, the son of Kish, who went forth to hunt his father's asses; and behold, I have found them."

CATAERH TROUBLE

ENDED BY HYOMEI

An Inexpensive Easily Used and Most Effective Remedy.

Surely try Hyomei, nature's harmless remedy for catarrh, colds, asthma, bronchitis, or croup of children—a treatment that is pleasant to use, and so certain of results that R. E. McRoberts sells it on the "No-cure-no-pay" plan. Hyomei is not a cure-all but a specific for distressing catarrh and similar ailments. You breathe Hyomei so that its antiseptic medication at once reaches the irritated and diseased tissues, healing and soothing the sore spots.

Get a Hyomei outfit, which contains inhaler and bottle of liquid, at once. Put twenty drops of Hyomei into the inhaler and breathe it a few times during the day. There is no treatment so satisfying for it instantly opens the stopped-up air passages—you breathe freely, the unpleasant discharges from the nose stop, and dull headaches vanish—even the worst cases respond quickly.

WHY IS LANCASTER FIRM?

Because Its Citizens Have Learned The Truth.

After reading this generous and encouraging report from Mr. Austin, those who have the misfortune to suffer, as he did, will naturally long to get similar relief. But to get the same good as Mr. Austin had, you should get the same remedy. There are of course, other kidney pills the same as Doan's. That is why Lancaster people demand the genuine.

I. D. Austin, blacksmith, Stanford Pike, Lancaster, Ky. says: "I had weak kidneys and the kidney secretions were irregular in passage. My back pained me. Doan's Kidney Pills strengthened me in every way."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Austin had—the remedy backed by home testimony. 50c at all stores. Foster-Milburn Co., Props., Buffalo N. Y.

POLITICAL ANNOUNCEMENTS

The Central Record is authorized to announce the following candidates for office, subject to the Democratic primary, August 7th, 1915.

FOR GOVERNOR.

Hon. A. O. Stanley.

FOR CIRCUIT JUDGE.

C. A. Hardin, of Mercer county.
Chas. C. Fox, of Boyle county.

FOR COMMONWEALTH'S ATTORNEY.

E. V. Puryear, of Boyle county.
R. W. Keenon, of Mercer county.
J. S. Owsley, Jr., of Lincoln county.

FOR CIRCUIT CLERK.

W. B. Mason.
W. A. Doty.

FOR SHERIFF.

G. T. Ballard, Jr.

FOR REPRESENTATIVE.

H. Clay Kauffman.

I am a candidate for County Court Clerk to succeed J. W. Hamilton the present Clerk.

I have accepted The Chief deputies appointment in the office in order to acquaint myself with the duties of Clerk and having fitted myself to take the examination required by law, I sincerely ask and solicit your support.

E. M. Walker.

Railroad Commissioner.

We are authorized to announce JOHN E. NEWMAN, of Bardstown, Nelson County, as a candidate for the Democratic nomination for Railroad Commissioner from the Second District; the primary election to be held Saturday August 7th., 1915.

It concerns us but little, personally, whether a convention be called before or after the August primary to adopt a platform of principles for the Democratic party. We are, however, deeply interested in seeing that every candidate who may be seeking a nomination at the primary is accorded a fair deal, whether we favor such a candidates nomination or not. Considering the various arguments both pro and con upon this subject, we are almost persuaded that some democrats are biased in favor of one plan rather than another as it may appear to forward some selfish end. Which would be the best for the party, is the sole question. If the convention before the primary has for its end the elimination of any candidate for a democratic nomination, then every fair minded democrat in the state should be out against a pre primary convention. The voters of the state should hear the views of every candidate for a nomination, what he has done for the party, his claims upon the democracy of the state and should be permitted to judge of the candidates fitness for the office and his qualifications and select whom the voter would to serve him, and thus vote for his choice.

There is no occasion for, and as we are advised, are no such irreconcilable differences among Kentucky democrats which would or should prevent any

candidate announced from standing upon any platform that the democrats of this state will adopt. Should a convention be called before the August primary it would not be unnatural for democrats everywhere to take such advantage as fairly within their power to so direct the convention as would result favorable to the interest of the candidates such democrats were supporting and urging for control. Thus many true and loyal democrats would lose sight of the good of the party, would be more interested in the success of some candidate than in having the party continue to be the political organization in Kentucky to which the people could and would look to for the safe, progressive and honest management of the people's business. Better have a convention when democrats would be free to look alone to the good of the party and when contention between factions and candidates are settled and eliminated. To us it looks much more fair to all candidates and more important still, that we are more likely to get a platform that expresses the will of a majority of Kentucky democrats to have the convention after the August primary. So, thus viewing this matter, not in the interest of any candidate or set of candidates, but alone for the good of the party, give us a platform after, rather than before, the primary.

W. J. GOOCH

Candidate For Legislature In Lincoln.

If our democratic neighbors of Lincoln knew "Billy" Gooch as well as do the democrats of this county he will receive the honor, unanimously, that he seeks.

Yielding to the persuasion of his friends, Mr. Gooch this week makes public announcement in a signed platform of his intention to seek the nomination at the August primary to represent Lincoln county in the Legislature. His is a platform pledged to economy and honest government and has the ring of democracy. The people can rest assured that this gentleman will live up to his promise, for he is not only a true democrat himself, but comes from good democratic stock long tried and tested and always found faithful. During the few years that he resided in Garrard county he was regarded as one of the most popular democrats of the county and was often solicited to accept office. He was always active in behalf of the party and helped many struggling democratic nominees to success, who now with their friends wish him full realization in his ambition and hundreds of these democratic friends will be found "dead-end on the line" to help him. Billy Gooch is every inch a man, a democrat to the core, honest to a fault, big hearted, broad minded, sensible and ever loyal to his friends as he is to every principle of right. The business people of Lincoln County can not afford to turn away from this opportunity to have such a representative, nor can the democrats afford to turn down so true, loyal and useful democrat.

Here's the greeting of twelve hundred democratic friends from your former home in Garrard, Mr. Gooch, who wish for you all success, and are ready to help you if you need them.

SCHOOL WINS BY DECISION OF COURT OF APPEALS IN BUENA VISTA TAX SUIT.

The law suit over the collection of tax in the Buena Vista Consolidated district has now been finally disposed of by the opinion of the Court of Appeals in favor of the school. Miss Jennie Higgins, Superintendent of Schools, Miss Rubles, one of the teachers in the school, Messrs R. D. McMurry and A. D. Scott, County Attorney G. C. Walker and K. H. Tomlinson heard the case argued in the Court of Appeals last Thursday by Col. E. H. Gaither of Harrodsburg Ky, for the taxpayers and by Mr. J. E. Robinson for the school.

Both the attorneys in the case and the School Board are being warmly congratulated upon the quick disposition of this law suit and the favorable outcome. Quite a good deal of interest was manifested in the case as it was understood that the future of the Buena Vista school depended upon the winning of the suit. The case involved the construction of the law enacted by the 1912 Legislature providing for transportation of pupils to and from school. The Buena Vista school is one of the first to undertake such a task and has made such a pronounced success that this school has attracted attention from the entire school interest of the state. The proof in the case shows that a daily average of 165 pupils attend this school and are hauled to and from school in wagons, some a distance of five miles. It is now greatly to be hoped that all the citizens of this district will cast aside any feeling that may have been caused over the lawsuit and will unite in making this school not only the pride of the locality and county but the entire state. We give here a portion of the opinion of the Court:

COURT OF APPEALS OF KY.

H. S. Christopher, et al., Appellants.

VS.

B F Robinson, sheriff, et al, Appellees

Motion to Dissolve Injunction—Opinion of the Court by Judge Carroll—

Sustaining.

This is a motion made before me to dissolve an injunction issued by the judge of the Garrard circuit court restraining the collection of a school tax in consolidated school district number 19 in Garrard county. The record consists of the petition, exhibits and affidavits. . . . The real purpose of the suit is to enjoin the collection of the tax voted at the October election, 1913. The validity of the tax voted in February is not seriously questioned. I might further add that counsel for the plaintiffs frankly stated that the PLAINTIFFS DESIRED A DECISION ON THE MERITS OF THE CASE. They want to know if one tax after another can be voted until in the judgment of the trustees a sufficient sum has been raised to conduct the school according to their notion.

Whether the board of education had the right to order an election to be held in October, 1913, for the purpose of ascertaining the will of the people upon the subject of the additional tax proposed, and whether the people had the right to vote the tax which they did vote, are the questions involved upon this appeal. . . . I limit the inquiry to this section of the Statutes because if the authority to do what was done cannot there be found, there was no authority for it. . . . It therefore seems that it was the manifest purpose of the Legislature to give to the people in these consolidated districts a free hand in the imposition of taxes. This statute is complete in itself upon this subject. It does not depend upon any other statute, nor is it necessary to consider any other in its construction. Where there is, as in this case, no statutory limit, the power to levy property and poll taxes for school purposes is committed to the people of the district. . . .

The section of the statute quoted does not limit either the amount of property or poll tax that may be levied, nor is there any limitation on the number of elections that may be held to increase the tax to such a sum as will be sufficient

to accomplish the purpose of the legislation. The statute gives the people all the power that in their judgment and discretion may be needed to impose a sufficient tax. If at any time they reach the conclusion that the tax is more than sufficient for the purpose intended, it may be reduced by a vote of the people, or the entire tax may be voted away.

In short, this whole matter has been left to the people themselves to determine. They can vote or not vote the tax, as they choose. If the tax first voted, or again voted, is not sufficient, they may continue to hold elections and vote taxes until the required amount has been raised. Likewise at an election they may reduce the tax or abolish it altogether. It may be conceded that this construction puts large power in the hands of the people in these districts, but the regulation of this matter is with the legislative department of the government. The Legislature has delegated this power to the people and the Legislature alone may take it away.

For the reasons briefly stated, the injunction is dissolved. Chief Justice Miller and Judges Settle, Turner and Hurt sat with me in considering this question and concur in this opinion."

The Womans Club

(Edited By The Womans Club)

Beautifying some unsightly vacant lots was seriously talked of and we hope this meeting will be known by the work that follows.

Some who pride themselves on beautiful lawns say they are bothered by cows, and even intimate (?) They are Woman's Club Cows. Can it be that any of our cows have such bad manners and morals as to trespass?

A very enthusiastic meeting was that of last Thursday. The question box was full of pointed questions and replete with suggestions, as to the beautifying of vacant lots and otherwise making this town beautiful by cleanliness and order. The scattering of waste paper, the pasting and painting of signs on the side walk were freely talked of—but the batteries of all were aimed at the pestiferous fly.

"Head 'em off and you won't have to swat 'em", seemed to be the unanimous opinion of those present.

In the summer, when the flies are thick, the wish will be frequently heard that preventive precautions had been taken. In the course of an inspection, January 7, by the sanitary bureau of New York, in response to complaints regarding a heap of manure, dirt and rubbish not far from a public school in a crowded district of the city, a rather startling state of affairs was revealed. The heap of manure was found partly covered with tar paper and rubbish in which, despite the cold weather prevailing—and there had been not long before a series of days with the temperature well down toward zero—flies were observed to be actively breeding. The Bulletin remarks, "This emphasizes the importance of properly caring for horse manure throughout the year and teachers anew why the filthy fly is always with us." Until definite precautions are taken during the winter to prevent the accumulation of heaps of filth and particularly piles of horse manure, in exposed situations under conditions favorable for breeding, the fly will probably continue to be the nuisance and the serious danger to health that it has always been.

ANDES TELLS WHY MEDICINE IS POPULAR.

He Says Because It Contains Real Merit—

Well Known German Chemist Prepares It.

"If I have been successful with any medicines," said Dr. Andes, "it is because the preparations contain real merit."

"I have in my employment in my laboratories in Cincinnati Dr. Albert Schnell one of the greatest German chemists in this country, and every bottle of Andes medicines are prepared under his personal supervision. My plant is inspected by the government pure food agents every sixty days, and has the O. K. of the government on every article that is placed on the market."

"The public must realize that I do not claim to have a panacea for all ills, but what I claim my medicines to cure I back up with my word and more money than any man that has ever advertised a medicine in the State. Every bottle of Andes' medicines are sold with a guarantee by the druggists to do just what I claim or money will be returned."

"The success the preparation has achieved here in Garrard County is ample evidence that my confidence has been well placed."

"A large percentage of your best people are now using Andes' medicine and they are daily testifying to its marvelous power as a medicine of exceptional value in cases of catarrh, stomach, liver and kidney troubles, nervous debility, and as a tonic, also as a system builder it has no equal."

"It is true that the demand for Andes has been large, but no larger than I expected."

Lancaster and Garrard County is only awakening to the appreciation of the full value of these great medicines, they are sold by The McRoberts Drug Co.

NOW IS OPPORTUNE TIME.

"It has surprised me," says Thos A. Edison, the great inventor and manufacturer, "to see how Americans have become weak-kneed over this war. They seem to be stricken with a sort of commercial paralysis. They ought to get out and do something; now is the opportune time. Why, you can put a building up cheaper today than you could before the war, and yet many of our supposed good business men will wait until the war is over as a sign of prosperity, and pay more for the building. The wise man will prepare now for the boom in trade that we shall soon experience, and which will be tremendous after the war."

Friends and relatives here of Miss Nannie Tucker will regret very much to learn of the serious accident that recently befell her mother, now 80 years old, she having sustained a fall at her home in Winchester and suffered a fracture of the hip-bone. Mrs. Tucker is a sister of the late Mr. William Hood and an aunt of Dr. T. J. Hood of this city.

An interesting letter has just been received by a Lancaster citizen from Mrs. S. H. Meeks, a woman 64 years old now residing at 86 W. Elm St., Titusville, Pa., but a resident of this place 45 years ago. She was a school girl here both before and after the Civil War and refers to Miss Pattie Peacock as her "chum" and wishes to learn something of her old-time playmate. This former Laneastrian moved to the Keystone State 33 years ago, and before leaving Kentucky resided at Somerset for a time. She referred to the landmarks about Lancaster and identified herself as "a niece of Martha Phillips and a cousin to Laura Dunn," and that she is "a cousin of the Sandifer girls." A letter to this venerable Kentucky exile hungering for "home news" would be highly appreciated.

In Sunday's Lexington Herald, there is a very complimentary editorial allusion to Walter S. Hiatt, a former Lancaster youth who will be readily remembered by the people of this place.

A note by young Hiatt is reproduced in full by Editor Breckinridge who gives a commendatory review of Walter Hiatt's rise to eminence. After the death here of Walter Hiatt's father, which occurred at the dwelling of Mrs. H. C. Kauffman, the family moved to

Lexington where Walter pursued a collegiate course and, at the same time, began his work in the Herald office as a newspaper writer. Later, he went to Europe and made a bicycle tour of the continent, augmenting his rise in the world by contracting a marriage with a young woman of the French nobility.

For some time now Mr. W. S. Hiatt has been located in New York City, the Mecca of all literary aspirants, as a successful magazine contributor, but leaves shortly for Europe to fill a couple of contracts for syndicate articles to American newspapers on his impression of the Great Conflict.

SCHOOL NOTES.

(By Wm. F. Miller.)

Miss Morris room very delightfully entertained the school last Friday morning.

Miss Ezells room will entertain in the morning at 8:15. The public is invited to be present.

The Base Ball Grounds were fixed up Monday evening and the spirit, is in the ball players for a winning team. A game will likely be played the middle of April.

The Exhibition of School work was well attended last Friday evening. Domestic Science, Manual Training and of the entire school was put on display. The ones who attended were loud in their praise for the school.

Mr. Robt Dunn, together with three other gentlemen, of C. U. of Danville, were visitors Monday evening of the High School Department. They made several very interesting talks on the University of Little Britain and extended to Mr. Canear, Teachers, Boys and Girls of High School an invitation to visit them and especially attend the Track meeting to be held in Danville April 30th.

ALFALFA FOR HORSES.

Far Superior as a Roughage to the Much Lauded Timothy.

What can be done to rid farmers of their prejudice against feeding alfalfa to horses? writes J. M. Shirley in Hoard's Dairyman. They think alfalfa is washy and heavy like clover. It is neither. Alfalfa has none of that white fuzz on its stems that clover has and which is inclined to produce heaves. City men say alfalfa is good goat feed, but not fit for horses. They go right on feeding timothy, notwithstanding the fact that timothy causes impaction of the bowels, and every little while a horse dies or has to be replaced on account of feeding timothy hay and too much corn. These same men know that horses will quit eating corn or oats to eat alfalfa hay, yet they sternerly dictate what the horses shall eat. They do not consider the horses' wishes in the least and do not even use "horse sense."

Timothy is a good filler, but neither a fattener nor a muscle maker. The animal lives on the grain fed, not on the timothy. When I tell these city men that my horses get nothing more than alfalfa to eat they say, "Your horses don't have to work as hard as ours." I tell them I only use two horses on a three horse manure spreader or on a disk with a two horse drag chained on behind and weighted down with rocks. I have raised and fed alfalfa for nineteen years and know it will make a young horse out of a premature old one. Feed alfalfa and save at least two thirds of the grain. You will also occasionally save a horse that would die of impaction if timothy was fed.

Feeding Hogs For Profit. One of the big things found out in late years in feeding hogs is that they do immeasurably better when given a certain amount of meat meal with corn than to have clear corn. The same amount of corn makes far more pork when the diet is proteinized, or the protein of meat added to the almost clear carbohydrates of the corn.—Farm Journal.

FARM STOCK.

Some ground flaxseed or oil-meal should be put in the sheep grain ration to ward off constipation.

In going to and from work, see that nothing strikes your horses' heels as they walk along. Nothing worries some horses more than that.

A herd of sows should be bred to farrow as nearly at the same time as possible. In cases of a small litter and an unusually large one the litters can be evened up and all grow together.

Fifteen different breeds of sheep are now recognized.

Many a good horse has been spoiled by a yanking driver. All the time tapping a horse with the whip makes him think you do not mean a thing you say or do to him.

Intelligence in feeding and handling should control the income from the hogs.

DAIRY POINTERS.

A dairyman says the first year of milking is the proper time in which to make the foundation for a persistent milker.

The coming spring will be a good time to send the scrub bull to the block and start in with a pure bred.

A cold rain will check the flow of milk as much as a snowstorm if the cows are exposed.

Look out for the gentle bull. Remember that it is not usually the roaring, bellowing, blustering bull that does the killing.

Keep the cows in clean yards during the day and supply rations of food value to keep up the production of the herd to a paying point.

CARE OF COW BEFORE AND AFTER CALVING

The dairy cow when dry should be fed chiefly on roughage. A small allowance of grain, say two pounds daily, will be quite enough, provided she is in reasonably good physical condition, and it is well to have it rich in protein.

Bran or oats, or a mixture of bran and oats with a little oil meal, or some other feeds rich in protein, makes a good combination for a cow before calving, says Howard's Dairyman. Corn silage and roots are very acceptable feeds if the cow has no pasture. In connection with the succulent feed the cow should have a liberal allowance of clover or alfalfa hay, or some other roughage rich in protein.

A cow at this time should not be fed more roughage than she will eat up clean. If fed too liberally there is danger of her getting into the habit of eating the most palatable parts of the roughage and wasting much good feed. A cow on pasture needs no grain, but a little roughage would be very acceptable. Of course, if the animal is thin in flesh it is well to feed some grain. The amount must depend entirely upon the condition of the cow.

If the cow has been properly fed there will be no necessity of giving any medicine after calving. A bran

The Cheviot is one of the most hardy breeds of sheep known. The Cheviots belong to the middle wool class. The staple is somewhat longer and a trifle coarser than Shropshire, but brings a high price in the American market. As a producer of high quality mutton the Cheviot ranks high. The ewes are prolific and are excellent mothers. The weights for ewes are from 120 to 150 pounds, although weights of 200 pounds are occasionally reached. The ideal weight for a ram is 225 pounds. The picture shows a Cheviot wether.

will make the most fat and flesh possible from the feed eaten after growing the fleece and keeping up the wear of the body. Ewes of this type never have a starved lamb, unless they are starved themselves. Sheep built on the opposite pattern of flat ribs and consequently narrow body, with narrow chest, cat hams and long goose neck are dainty eaters, hard to fatten, poor mothers and die easily and early.

Select and breed for large size up to a certain point. Extreme specimens of size in any family of live stock are not usually as well shaped or early maturing nor as profitable generally as the more tidy medium pattern. It seems to be a rule of nature to build coarse and loosely the plant or animal that is a giant in its family. A flock all the same size and shape will sell well because uniformly pleases the eye. The fact that sheep grow wool that can always be sold at some price gives them an extra chance over other stock to pay for their feed and care. It will cost very little more to grow a big sheep with a ten pound fleece than the same kind with a six pound coat; at least the extra four pounds of wool will not, provided the sheep are otherwise the same, cost as much in feed as it will bring on the wool market.

Piles in Pigs.

When pigs suffer from piles stop feeding corn and for a time feed a light slop of milk, oatmeal (screeled) and oilmeal, keeping the bowels active. Constipation may induce piles. Give the pigs a chance to take abundant exercise. Clean the house and feeding place every day. Bathe protruded parts with warm water until clean; then smear with sulphur ointment and return to place. Give a teaspoonful of sulphur once daily to each pig.

Grooming the Horses.

Do not depend wholly on the feed to keep the horses in good condition. Grooming has a great deal to do in the matter of keeping horses looking well and in good condition; hence it is poor policy to neglect it. Give them a little extra grooming this winter. This is not attended to on many farms as it should be.

Feeding Dairy Cattle.

A ration for dairy cows must be palatable and contain succulence if best results are wanted. Silage, beets, mangels, turnips and soaked beet pulp are good sources of succulence and render the ration palatable. Corn silage is the cheapest and most economical, except in a small herd, where it does not pay to build a silo; then roots or soaked beet pulp make a good substitute. A good dairy cow can consume with profit five to ten pounds of grain a day, thirty to forty pounds of succulent feed and ten pounds of good hay.

Feed the Milk Producer.

Dairying is the kind of business that pays for the right kind of an investment, and in this case the investment is in cows and feed. It is poor policy to try to shorten the ration.

Stop! Look! Listen!

They are shipping horses and mules out of our country by the thousands and it seems to me the best time in the world to raise all we can.

Old Black Joe, Young Napo and Silver Silk will make the season 1915 at Ben Ham's barn, Hyattsville, Ky.

OLD BLACK JOE

A four-year-old black Jack, over 15 hands, extra heavy body and large bone and has proven to be an excellent breeder. The first mule that he sired, sold for \$90.00 cash, at weaning time. Any Jack that will sire a mule that sold for \$90.00, last fall, deserves the patronage of the county.

YOUNG NAPO

This is a two-year-old, coming three that bids fair to make a splendid Jack. He is by Napoleon 3rd, the largest Jack that I have ever seen and out of a John Morgan Jennet. He will be permitted to serve a limited number of mares.

SILVER SILK

A 54 inch pony, beautifully marked with white and black, and large enough to be useful not the play thing size.

He is a grand son of Dock Grey and out of an excellent pony mare. They will each stand at

\$8.00 to Insure A Living Colt.

A Lien retained on all colts until season is paid and the season is due from the man who bred mare if parted without our consent. Very careful, but not responsible for accidents.

E. B. HAM, HYATTSVILLE, or S. H. ALDRIDGE, LANCASTER, KY

Duke Of Denmark, Jr

This richly bred Saddle Stallion will make the season of 1915 at my stable on the Buckeye pike, about 2 miles from Lancaster, Ky., at the low price of

\$8.00 TO INSURE A LIVING COLT.

PEDIGREE—Duke of Denmark, Jr., by Duke of Garrard, he by the old Duke of Denmark. First dam Duke of Garrard, the House mare, she sired by old Black Squirrel. First dam of Duke of Denmark, Jr., Anne Bell by Wallace Denmark, and out of Lady Morgan, by old Stonewall Jackson.

The Duke is a beautiful rich red bay stallion, 10 years old and has proven to be a sure foal producer and a fine breeder of combined horses. See him before you breed.

Lien retained on all colts for season money. Care taken to prevent accidents but not responsible should any occur.

Bleucher 46158, record 2:29 1/2, trial mile 2:14 1/2, half in 1:36, last quarter in 32 seconds, is a handsome seal brow horse, and will weigh 1100 pounds. He greatly resembles his good sire Silent Brook and is out of Clayo, by the great Futurity sire Moko.

Foreign demand marked the exhaustion of foreign supply and we may expect the call for our horses to continue long after the war is over. Our advice to mare owners is to breed their mares and to breed them to stallions of merit and proven worth as sires. Bleucher is just the type to produce the colts that will supply the demand. His colts have proven fine, with nice head and neck and plenty of bone and conformation.

This great trotting Stallion will make the season of 1915 at my stable in Lancaster, Kentucky, at

\$20.00 TO INSURE A LIVING COLT.

Barlowe

I will also stand this beautiful Shetland Stallion for the season of 1915 at my stable in Lancaster, Ky., at

\$10.00 To Insure A Living Colt.

I am prepared to take care of mares on grass at 10cts per day. Lien retained on colts for service fee.

Money due when mare is traded or parted with. Care taken to prevent accidents but not responsible should any occur.

SPEAKER CLAUDE B. TERRELL IS SEEKING NOMINATION BY DEMOCRATS FOR TREASURER

Trimble County Man Submits Candidacy to Voters in Primary of August 7, Upon Record of His Public Services in General Assembly.

HAS TWICE PRESIDED OVER HOUSE

CLAUDE B. TERRELL.

REDFORD, KY., March 25.—The Honorable Claude B. Terrell, of Trimble County, today announced himself a candidate for the Democratic nomination for State Treasurer in the State primary of August 7, next. He will make an active campaign for the nomination.

Mr. Terrell is one of the best known of the younger Democrats, who have been active in politics and public life during the last few years, and enjoys an acquaintance that covers every section of Kentucky. He is a farmer, merchant and banker in his home town. He has served the Trimble and Oldham District in the General Assembly of Kentucky on three occasions, twice without opposition, and serving at two sessions as Speaker of the House of Representatives.

Mr. Terrell first entered State politics in the memorable legislative session of 1900, when the Goebel contest was before that body. He was a member of the Rules Committee of the House, one of the most important positions at that time, and in the gubernatorial contest, following the assassination of Governor Goebel, he was a member of the Steering Committee of the Democratic organization in the lower House. He was one of the five men of that body who kept its records intact during the days when W. S. Taylor prevented the General Assembly from meeting at the Capitol, and preserved those records so that they were later upheld in the courts of Kentucky.

Mr. Terrell came back to the legislative session of 1912, and because of his former experience was easily elected Speaker of the House. He was returned by his district to the session of 1914, Oldham County Democrats setting aside the custom of rotation in order that he might be thus signally honored, and he was re-elected to the Speakership without opposition in the House. As presiding officer of the lower House he had much to do with the enactment of important legislation during the sessions of 1912 and 1914.

Mr. Terrell has for quite a number of years been a member of the Board of Trustees of the State University, Lexington, and has taken an active part in the conduct of the University, and shown much interest in all educational matters that came before the legislative sessions over which he presided. He bases his candidacy for State Treasurer on his experience generally as a business man, and because of his knowledge of the State's financial affairs through his service in the General Assembly.

He presents his candidacy briefly in the following card:

"To the Democrats of Kentucky:
"I will be a candidate before you in the Democratic State primary on Saturday, August 7, next, for the nomination for State Treasurer. I feel that my experience in the past in a legislative capacity, as member and Speaker of the House of Representatives, has brought me closely in touch with public affairs of Kentucky and the needs of the State. The Treasurer, besides the duties directly connected with his department, is a member of the State Sinking Fund Commission, which has general charge of the financial affairs of the State, and a member of the State Board of Valuation and Assessment, which fixes the franchise values of corporations for purposes of taxation. I believe my public experience as a business man and legislator qualifies me for the duties which are to be performed on these two boards, as this experience has given me an intimate knowledge of public affairs and acquainted me somewhat with the needs of the State. If chosen for this office, it is my purpose to give my entire time and attention to it, to the end that it be successfully conducted. I shall always retain my interest in the further development of the educational system of Kentucky, and my desire to see it become a perfect system is one of the reasons why I should like to be a member of the next State administration.
"I respectfully solicit your support."
"CLAUDE B. TERRELL."

DEATHS

JOHNSON.

Mathew W., the infant child of Mildard Johnson, died at the latter's home last Friday and was buried at the Lancaster cemetery Saturday afternoon.

ANDERSON.

Mr. Tom Anderson, recently in the employ of the Lancaster Mill & Elevator Co., formerly with W. A. Arnolds livery stable died Sunday after a brief illness of paralysis. This young man was very industrious and polite and was popular with all who knew him. We join with friends of the community in deepest sympathy for his bereaved young widow and relatives who are left to grieve the untimely taking of this polite young man.

ARCHER.

Mr. Sampson Archer, aged 65 years and one of the most respected citizens of the county, died at his home near Paint Lick, last Sunday, after a lingering illness of Paresis. The immediate cause of his death however, resulted from a burn which he received about a week previous to his death. Mr. Archer is survived by his wife and fourteen living children. He was a member of the Presbyterian church and after short services at the home, interment took place at the Paint Lick cemetery.

SPRATT.

Mr. W. C. Spratt, aged 77 years and long a citizen of this county, died at the residence of his son-in-law, Mr. Levi Elam, last Friday and was buried at the Goshen cemetery in Lincoln county last Saturday. The cause of his death was tuberculosis, from which he had long been a sufferer. He was a devoted member of the Baptist church having affiliated with this denomination in his early youth. He served under General Morgan and was numbered as one of the oldest confederate soldiers in the county. He is survived by two brothers Mr. Frank Spratt, of this county and Mr. Henry Spratt, of Fort Smith Ark., and the following children, Mrs. Levi Elam and Mrs. Nannie Onstott.

HERRING.

Thomas L. Herring died at his home in Lexington, Friday night at 10:30 o'clock of pneumonia. Although an invalid for the past four years he was always cheerful and patient. Besides his wife, who was Miss Nicy Floyd, he leaves five children, who were at his bedside: Mrs. Mac Moore, Miss Lee Herring, Fleece R. and Floyd Herring, of Lexington and Mrs. Victor Rice of Danville, and a number of relatives in this, his native county. Mr. Herring was born near Lancaster Oct. 28, 1836, and was a useful and prominent citizen of Garrard until he cast his lot with Fayette about five years ago where he has made many staunch friends. He was a kind and loving husband and a devoted father.

The body was brought here and laid to rest in the Lancaster cemetery by the side of friends and relatives who had gone before. Short funeral services were conducted at the graves by Elder F. M. Tindler.

BEAGLE.

Mrs. Elizabeth Beagle, widow of Rev. Jesse Beagle, of Peach Grove, died after an illness of a few weeks at the home of her daughter, Mrs. Fred Hobbs where she took sick while visiting.

She was the mother of Rev. Jesse Beagle, formerly pastor of the Falmouth Baptist church, but now of Lancaster; and C. F. Beagle, Mt. Auburn well-known business man and who has been well-known in this county for many years; and Mrs. Mary Ellis and Mrs. Pearl Hobbs, of Peach Grove. Early in life she united with the Flag Spring Baptist church, but later trans-

ferred her membership to Second Twelve Mile, and lived a Christian lady all of her life. She was much devoted to her church duties, and took an active part in all movements that elevated and brought souls in closer touch with their Creator. She was strong in faith and much devoted to her Christian work. She was always ready and willing to contribute to the cause of her Master whom she loved and worshiped. She was a kind indulgent mother, a true and faithful helpmate and a splendid neighbor. Her delight was in contributing to the happiness and comfort of others and many acts of kindness grace the pages of her life's record.

Mrs. Beagle was a great Bible student and had taken and was a careful peruser of the Western Recorder for 60 years. She died just as the sun went down, and so ended a life full of good deeds, and that was a benediction to all those who came in contact with her.—Falmouth Pendletonian.

GRIFFIN.

The remains of James W. Griffin were brought to Lancaster from his late home in Osceola, Ark., on last Saturday afternoon, and after short funeral services at the grave by Rev. F. M. Tindler, were placed at rest in the family lot in the Lancaster cemetery.

Mr. Griffin's demise was due to stomach trouble, from which he has been a long sufferer.

Besides his wife, who before her marriage was Miss Jennie Underwood of Lincoln county, he is survived by three daughters, Mrs. Joseph Young, of Osceola Ark., Mrs. Robert Bourland, of Lawrenceburg, Ky., and Mrs. Frank Curtis of Hazard, Ky., and one son, Jesse Griffin of Indianapolis, Ind., also by three sisters, Mrs. Sophronia Fox of Danville, Ky., Mrs. Henry Crumblins of Kirgston, Tenn., and Mrs. George Smith Sr., of Lancaster, Ky.

James Welby Griffin was born in Somerset, Ky., and would have been 64 years old next August. Shortly after the war the family moved to Garrard county, where until a few years ago the deceased resided. Upon leaving Garrard Mr. Griffin went to Lexington, and from there to Osceola, Ark., where until a few months ago he operated a large dairy, but his rapidly declining health forced him to dispose of his interests. Mr. Griffin had been a member of the Christian church since his boyhood. He assisted in the organization of, and at the time of his death was an elder in the Christian church at Osceola, and was one of the most highly respected and progressive citizens of the city of his adoption.

The deceased had a host of warm friends in this county, where he so long resided. He was a man of unusually bright intellect, jovial, companionable, with an ever ready fund of anecdote, a splendid conversationalist and a lovable disposition, never so happy as when he could gather about him a number of his friends and regale them with some of his interesting anecdotes.

Many expressions of regret at his passing were heard from those who had known and associated with him when he lived among us, and the sympathy of the entire community goes out to the stricken family in their bereavement.

JOHN W. SCOTT

Passes Away At Ripe Old Age.

As we go to press sad news of the death of John W. Scott, one of the most prominent citizens of the Burna Vista section of the county, reaches this office. Mr. Scott had been in declining health for some time and died from the effects of old age, being eighty years of age, born in 1834.

Success crowned the industrious life of this good citizen and he accumulated quite a good deal of property and was always prominent in that section of the county. His faithful wife passed away some months ago and he has declined in health rapidly since. He leaves eight children, seven sons, Messrs. A. T. A. D. Charley, Virgil, William, James and T. M. Scott all prominent citizens and business men in that section of the county, and one daughter,

Mrs. Henry Rubles to mourn the loss of an indulgent father. The remains will be laid to rest in the family lot at Mt. Olivet, after funeral services at church tomorrow, Friday. The Record unites with their hundreds of friends in the deepest sympathy for the bereaved family.

HOPPER

"Uncle" Joe Hopper, of Perryville, Answers The Final Summons.

Rev. Joseph Hopper, known to his thousands of friends as "Uncle Joe", died suddenly at his home in Perryville Sunday afternoon at 3 o'clock. He had been in declining health several months but even his immediate family did not realize that the end was so near.

"Uncle Joe" was born in Lancaster, 86 years ago, where Ball's Grocery store now stands, and although he had lived away from us many years and had traveled much in the mountain countries, spreading the gospel and leading souls to Christ he always called Lancaster home.

Upon the occasion of his last visit here he spoke in a very pathetic way of only one, near his own age, being left, she being Mrs. Ann Walker. His visits here were always looked forward to and enjoyed by all denominations.

"Perhaps he was the best known Presbyterian minister in the State," said the Rev. Dr. David M. Sweets, editor of the Christian Observer, who was one of his closest friends. "He enjoyed a large friendship everywhere."

"He began as a Sunday-school worker and was a sweet singer of the old type," continued Dr. Sweets. "Scarcely a city or town in Kentucky has not heard him. In every part of the State there are churches which he founded as missions and Sunday schools and which grew to be sound parishes through the inspiration of his teaching. He had great power with a congregation, holding men and women for lengthy periods with the magic of his oratory or the charm of his song."

"A remarkable feature of the evangelist's work was that he was not ordained until 67 years old. Since 1875 he had worked for the church in all fields of Kentucky, and I doubt if there is a similar case of record where a preacher waited so long to become a minister. He was ordained in March 1896, in the Transylvania Presbytery, and for a time was the official evangelist of the Presbyterian synod of Kentucky. During his labors of forty years I believe he brought close to 3,000 persons into the church."

"Mrs. Hopper died seven years ago. Shortly before her death 'Uncle Joe' and his wife celebrated their golden wedding anniversary, and messages of congratulation were received from every nook and corner of Kentucky where the preacher was known and loved."

The old friends and associates here, expressed their deep affection and reverence for this lately departed saint by ordering a handsome floral design sent out from Danville to Perryville where he was buried, on Tuesday morning.

The Presbyterian church has had many successful revivals conducted by this venerated minister. The last one about three years ago when he was then 82 years old. He spoke of it then as his last visit and touchingly spoke of his boyhood days here.

TUBERCULOSIS FATAL.

Lizzie Burnam, colored and aged 24 years, daughter of Louis Burnam, died last Tuesday morning, after lingering several months with tuberculosis. She was a member of the Baptist church where the funeral services were conducted yesterday.

COOPER TO HAVE
BIG BREAD LINE
Proceeds From Sale Of Celebrated
Tanalac To Feed Poor.

Louisville, April 1st, 1915. L. T. Cooper, the noted "Tanalac Man," will establish and maintain, at his own personal expense, a "bread line" in Louisville this winter. Mr. Cooper conceived and began executing this idea as quietly as he performed his remarkable relief work among the Dayton flood sufferers in 1913.

Louisville will, therefore, be unique in its relation with the rest of the country, because this city will have the only "bread line" outside of New York and maybe a few other larger cities of the world, where the plan has been established and is now maintained by the charitable organizations.

Mr. Cooper spent the afternoon looking over several available locations for the "bread line" and he will probably be prepared to state definitely by today just where the work will be carried on. He has also been in communication with local bakeries, and an agreement with reference to the bread and coffee supply has been practically reached.

Mr. Cooper, who is one of the most magnanimous of men, has always been in sympathy with the poor and unfortunate. The "bread line" will therefore be only another exemplification of his nature. A large percentage of the profits from the sale of his celebrated preparation, Tanalac, the medicine that is accomplishing such remarkable results in cases of catarrh, stomach, liver and kidney troubles, will be devoted to charity and her children in this city.

In commenting upon this great undertaking, Mr. Cooper said: "Since a mere boy, I have always been inclined to help those who were less fortunate than myself, and in each city I visit I have invariably shown my sympathy for the poor by performing some service at my own personal expense that would bring a bit of genuine charity directly to them. I can, therefore, imagine nothing among the several charitable plans I now have in mind, that will prove of as much benefit as a 'bread line.' The necessary details connected with the plan will be perfected by me this week."

Tanalac, the celebrated medicine now being introduced by Mr. Cooper, can be bought in Lancaster, Ky., at McRoberts drug store.
